Volunteers needed for AsiaPac11 Interoperability Showcase

Be part of something that is going to change the way health information is shared.

The HIMSS AsiaPac11 Annual Conference and Exhibition, featuring the Interoperability Showcase, draws thousands of people from around the world. This year the Showcase exhibit and demonstration is larger than ever and we need your help.

What a volunteer does:

- Assist in coordinating tours and move the Showcase visitors from the opening presentation through the demonstration
- Help answer questions or guide them to someone who can.
- Ensure that visitors enjoy the experience and leave the Showcase ready to learn more.
- You need not be an expert! We will provide all of the information you need to know.
- Acts as a guide with crowds of people who want to learn more about interoperability concepts.
- Help where it's needed!

Big benefits to you:

- Knowledge: Understand how interoperability works in hospitals, governments, communities and how it relates to you and your career!
- Networking: Meet fellow healthcare professionals that are working to make this a reality and see what they are working on.
- AsiaPac11 badge: To use for entrance to the exhibit after your shift.
-Note: You must sign up for at least two half day shifts to receive this benefit.

Interested in Volunteering? Next Steps:

1. Please complete this short [Volunteer Contact survey](#) or use the direct link
2. We will contact you shortly with more info.

If you have additional questions please contact Elizabeth Peters, HIMSS Global Showcase Coordinator at epeters@himss.org with the words **AsiaPac11 VOLUNTEER** in the message line or call Elizabeth at 312-915-9527.

Find more details about the showcase at:

<http://www.himssasiapac.org/11/home/index.aspx>

Thank you.

HIMSS Interoperability Showcase Team
