

INTEROPERABILITY SHOWCASE

BOOTH #7750 - North Hall

Where interoperability gets real.

Experience the ultimate reality show in healthcare interoperability. Create and manage your own virtual health record – in real-time, real world clinical scenarios. See a hands-on demonstration of the latest standards-based connectivity that's making the future a reality...today. **Learn, discover and explore the most comprehensive Interoperability Showcase ever! Visit BOOTH 7750 - North Hall.**

New at HIMSS09!

- ▶ IHE-based open source tools to support Health Information Exchange (HIE)
- ▶ Federal HIE initiatives including the Nationwide Health Information Network (NHIN)
- ▶ Health Information Exchange featuring HITSP Interoperability Specifications and cross enterprise security and privacy authorization
- ▶ Seamless exchange of remote monitoring data across multiple patient care devices
- ▶ 70+ vendors demonstrating connectivity between 75+ systems leveraging interoperability and expanded care coordination
- ▶ And much...much more!

HIMSS09
Annual Conference & Exhibition
April 4-8, 2009 / Chicago, IL
