

IHE USA Membership Information

Join IHE USA and Make a Difference!

Founded in 2010, IHE USA (www.ihe.org) is a not for profit organization that operates as a national deployment committee of [IHE International](http://www.ihe.org)[®]. IHE USA serves as a voice for U.S. health IT interests and a key partner in efforts to foster national adoption of a consistent set of information standards to enable interoperability of health IT systems.

IHE USA leverages the global success and stakeholder engagement of the 350+ [organizational members of IHE International](http://www.ihe.org). Collectively these two organizations establish liaison relationships and shared activities within a wide range of health IT stakeholders to achieve the goals of the national health IT agenda. IHE USA is also responsible for promoting the appropriate use of [IHE Technical Framework](http://www.ihe.org) specifications within the U.S.

IHE USA Primary Activities

- Testing & Tool Development
- Education, Training & Outreach Deployment of the IHE Framework in the U.S.

The mission of IHE USA is to drive adoption of standards-based interoperability to improve patient care through innovation, standards profiling, testing, education and collaboration.

IHE USA undertakes its mission through the support and commitment of the IHE USA board, its members and sponsors.

IHE USA Membership

Join as an inaugural member of this new and important organization. IHE USA member benefits include participation discounts, marketing resources, education and training and more. IHE USA members will also enjoy many networking opportunities with others who share its commitment and vision to increase the effective development, adoption and use of standards-based interoperable solutions.
