

The Office of the National Coordinator for  
Health Information Technology

## **Wisconsin HIE Secure Messaging and Directory Services**

**Wisconsin Statewide Health Information Network  
(WISHIN), Inc., Wisconsin Health Information Exchange,  
and Wisconsin Department of Health Services**

During this demonstration, participants will learn about Wisconsin's approach for supporting Stage 1 Meaningful Use HIE requirements using a Health Information Service Provider, the Direct secure messaging solution, and a provider directory developed by the Wisconsin Medical Society; and how Wisconsin's State HIE program, Medicaid, and Regional Extension Center will also use the directory for EHR and HIE adoption tracking, reporting, and outreach.
